

EN_WARNING:

Please follow the provided instructions for guaranteed safety when using this light fixture. Keep the instructions in a safe place.
To carry out the installation or whenever an operation in the light fixture is carried out, make sure of having disconnected the electric power. All light fixtures are not suitable to be covered in thermally-insulating material.
To prevent any potential hazards, the manufacturer or their authorized service agent should be the only ones to replace the light source or replace a damaged external flexible cable in this light fixture.

IT_AVVERTENZA:

Si prega di seguire le istruzioni fornite per garantire la sicurezza quando si utilizza questo apparecchio di illuminazione. Conservare le istruzioni in un luogo sicuro.
Prima di effettuare l'installazione o qualsiasi operazione sull'apparecchio di illuminazione, assicurarsi di aver disinserito l'alimentazione elettrica. Tutti gli apparecchi di illuminazione non possono essere coperti da materiali termo isolanti.
Per prevenire eventuali pericoli, solo il produttore o il loro agente di assistenza autorizzato devono procedere alla sostituzione della sorgente luminosa o del cavo flessibile esterno danneggiato in questo apparecchio di illuminazione.

FR_AVERTISSEMENT :

Veillez suivre les instructions fournies pour garantir la sécurité lors de l'utilisation de ce luminaire. Conservez les instructions dans un endroit sûr.
Avant de procéder à l'installation ou à toute opération sur le luminaire, assurez-vous d'avoir déconnecté l'alimentation électrique. Tous les luminaires ne peuvent pas être recouverts de matériau isolant thermique.
Pour éviter tout danger potentiel, seul le fabricant ou son agent de service agréé doit remplacer la source lumineuse ou le câble flexible externe endommagé de ce luminaire.

DE_WARNUNG:

Bitte befolgen Sie die mitgelieferten Anweisungen, um die Sicherheit bei Verwendung dieser Leuchte zu gewährleisten. Bewahren Sie die Anweisungen an einem sicheren Ort auf.
Stellen Sie sicher, dass vor der Installation oder bei jeder Arbeiten an der Leuchte die Stromversorgung unterbrochen ist. Nicht alle Leuchten sind für eine Abdeckung mit thermisch isolierendem Material geeignet.
Um mögliche Gefahren zu vermeiden, sollten nur der Hersteller oder deren autorisierter Kundendiensttechniker die Lichtquelle austauschen oder ein beschädigtes externes flexibles Kabel in dieser Leuchte ersetzen.

ES_ADVERTENCIA:

Por favor, siga las instrucciones proporcionadas para garantizar la seguridad al usar este dispositivo de iluminación. Guarde las instrucciones en un lugar seguro.
Para llevar a cabo la instalación o cualquier operación en el dispositivo de iluminación, asegúrese de haber desconectado la corriente eléctrica. No todos los dispositivos de iluminación son aptos para ser cubiertos con material aislante térmico.
Para prevenir cualquier peligro potencial, el fabricante o su agente de servicio autorizado deben ser los únicos que reemplacen la fuente de luz o sustituyan un cable flexible externo dañado en este dispositivo de iluminación.

_AR: تحذير

يرجى اتباع التعليمات المقدمة لضمان السلامة عند استخدام هذا الجهاز الإضاءة. يرجى الاحتفاظ بالتعليمات في مكان آمن قبل القيام بالتركيب أو أي عملية على الجهاز الإضاءة، تأكد من فصل التيار الكهربائي. ليست جميع أجهزة الإضاءة مناسبة للتغطية بمواد عازلة حراريًا. لتجنب أي مخاطر محتملة، يجب أن يكون الشركة المصنعة أو وكيل الخدمة المعتمد هما الوحيدين الذين يقومون بتبديل مصدر الضوء أو استبدال كابل خار جيًا مرئيًا تالفًا في هذا الجهاز الإضاءة.

CN_警告:

在使用本照明装置时，请遵循提供的说明书以确保安全。请将说明书放在安全的地方。
进行安装或进行任何对照明装置的操作时，请确保已断开电源。所有灯具都不适合覆盖隔热材料。
为了防止潜在的危險，只有制造商或其授权的维修服务代理商可以更换灯源或更换灯具中损坏的外部电线。

Bella Zoom Outdoor Projector

INSTALLATION

1. Electrical Supply

This unit requires a constant voltage 24V driver

Ensure supply driver and connectors are housed indoors OR in a suitably IP rated enclosure.

2. Installation

Check that the mounting surface is suitable for the installation of this fitting.

Step 1 Make connections to a 24V constant voltage LED driver.

Step 2 Secure fitting in place using two suitable screws and adjust direction of the projector head to the right place to be light up.

Step 3 Test whether the beam angle adequately covers your area (default set to medium beam). If you need to adjust the beam angle, use the tool supplied to align with the two slots at the lamp head. Apply downward pressure on the slots and rotate slightly—about 2-3 mm at a time, either clockwise or counterclockwise. After each adjustment, pause to check if the lighting angle is suitable for the object being illuminated.

3. Cleaning:

Ensure the fitting is completely isolated and let it cool down. Use a slightly damp, lint-free cloth to clean the fitting. Before reconnecting power, make sure the fitting is entirely dry.
